

* We are here To reaffirm our adhesion To SPIELSTRASSE AS INITIALLY programmed, which for us is not only an extremely important but interesting project. We feel, therefore, That to have closed Spielstrasse unilaterally is an unacceptable gesture. We find it hypocritical to cry over an event which basically is a repetition of analogous events happening in the world every day. If Spielstrasse had a function yesterday, it has one today and Tomorrow as well. Beyond The rhetoric stirred up by The recent useless bloodbath Lies the fact that the Olympic Games as they have

been instituted, in the face of today's problems, are merely a useless giant mechanism at the disposition of a few nations who using the label "sports events" wish to demonstrate their technical and economic prowess. The Olympic Games thus conceived, in this day and age are anachronistic. It seems to us that after the recent Tragic events, even those who seemed blind to the evidence are beginning to understand the colossal absurdity of an Olympiade, conceived, projected and realized in this way. Our non play underlines this very fact, and for the same reason we feel it is indispensable to continue Spielstrasse

completely to the end.
